

NETZSCH FINE PARTICLE TECHNOLOGY LLC

and **SPX CORP.** signed a definitive agreement on April 30 under which NETZSCH acquired the Premier Mill business of SPX Corp. As of May 3, the combined products and services of NETZSCH and Premier Mill became available under the new company name, NETZSCH Premier Technologies LLC. Premier Mill's product line is a strategic addition to the existing NETZSCH portfolio of grinding, dispersing, mixing and deaerating equipment. This equipment is used for processing coatings, inks, pigments, pharmaceuticals, food, ceramics, agrochemicals, minerals and other products. NETZSCH will build on Premier's customer relationships by maintaining sales, service and support for all Premier parts and products.
